

Press ARTechnic PBPPs650

Advantages of the machine:

- Customized feeding hopper
- The moving of the pressing plate is kept extremely rigid and straight.
- The steel construction of our machines is designed to withstand loads far in excess of the rated load for the different models (this is why our machines have a generally bigger own mass compared to the competition)
- The possibility of producing specified machines concerning the customer's request e.g. changes in the stroke of the pressing plate, changes in the loading hole, changes in the size of the bale, etc.
- Unmanned and durable hydraulic system
- No hidden costs of operating the machine
- **NEW !! The ability to connect the machine to the statArtechnic**

Technical specification

Number of chambers:	single	Loading:	top
Charging hole:	360 x 1000 mm	Bale tying:	-
Max. pressure:	650kN (65 ton)	Bale launch:	automatic
Unit pressure:	40,6 kg/cm ²	Supply:	400/50 [V/Hz]
Bale dimensions:	400 x 400 x 130-300(reg.)	Engine power:	22-30 kW
Bale weight:	app. 10 – 40 kg (Aluminium can)	Weight:	3800 kg
Productivity:	to. 1000 kg/h. (Aluminium can)		

Dimension

LEGEND

		[mm]
A	length	7300
B	height	2700
C	width	1500
D	filling inlet	360x1000

Capacity

2
cycles of compaction

Bale dimensions: 400 x 400 x 130 mm

Bale weight: ca. 14,5 kg

Bale making time: 80 sec
