

Waste bin press ARTechnic PS-5

Advantages of the machine:

It is a lightweight and compact machine for pressing municipal wastes in containers of 120 or 240 liters. Pressure of 500 kilograms of the pressing plate provides excellent wastes compaction. Depending on the type of compressed wastes it will reduce the amount of containers every month up to 80%. The unquestionable advantages of this device is also:

- simple operation that does not require special training
- high mobility ---> thanks to wheels the machine can be transported by one person
- low power consumption
- reliability
- the possibility of pressing more containers alternately
- universal power supply 230V

Technical specification

Max. pressure:	5kN (0,5 tons)
Reduction size of rubbish up to:	80%
Jump punch pressing:	600 mm
Application for containers:	240L and 120L with standard: EURO-NORM 840/1
Steering:	control with both hands
Advantages:	burden is not transferred to the wheel
Supply:	230/50 [V/Hz]
Work cycle:	13 seconds
Weight:	160 kg

Dimension

LEGEND

		[mm]
A	height	1950
B	width	600
C	depth	1230
D	transport height	1950
E	pressing plate height	1100
F	diameter disc pressing 240L	450
F	diameter disc pressing 120L	340
